Book Jungle. Paperback. Book Condition: New. Paperback. 200 pages. Dimensions: 9.1in. x 7.4in. x 0.6in. Sir Isaac Newton, was an English physicist, mathematician, astronomer, natural philosopher, alchemist, theologian and one of the most influential men in human history. His *Philosophie Naturalis Principia Mathematica*, published in 1687, is considered to be the most influential book in the history of science. In this work, Newton described universal gravitation and the three laws of motion, laying the groundwork for classical mechanics, which dominated the scientific view of the physical universe for the next three centuries and is the basis for modern engineering. Newton showed that the motions of objects on Earth and of celestial bodies are governed by the same set of natural laws by demonstrating the consistency between Keplers laws of planetary motion and his theory of gravitation, thus removing the last doubts about heliocentrism and advancing the scientific revolution. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
